

LONGSHORE SURGERIES

FLU VACCINATION CLINICS 2022

The Practice would like to inform patients that we will NOT be sending out individual vaccination invites.

If you fall within the criteria listed below, you will be eligible to have the flu vaccination.

Aged 65+ (or 65 as of 31.03.2023) or under 65 but 'at risk'; pregnant, on chronic disease register for heart, kidney, liver, stroke or diabetes, have a chronic respiratory disease, dysfunction of the spleen, immunosuppressed or undergoing chemotherapy treatment, carer in receipt of carers allowance or main carer of elderly/disabled person.

Children aged 2,3 years old and under 18 years at risk, will be contacted separately to have the nasal vaccination in surgery.

Children aged 4-11 years will be immunised by the School Nursing Teams.

Adults aged 50-64 not 'at risk' will be contacted separately with their clinic schedule.
